Choose how you trade forex: online or via
your foreign exchange dealer
- Trade 24 hours a day while the markets
are open
- Safe, secure & regulated

Trading forex with OMF offers some distinct advantages

Around the clock support and advice

Our team of experienced dealers are there to provide support and advice 24 hours a day when the FX markets are open, from 7.30am Monday until the close of the New York markets on Saturday morning NZT.

Your dedicated dealer is there to provide instant colour on the markets at any given time. In addition to phone based support, we can provide you with a range of market reports, daily commentary and latest announcements so that you can stay full informed of currency movements.

Leveraged trading online, or let us execute for you

The foreign exchange market is the largest and most liquid market in the world with over USD 4 trillion worth of transactions taking place on an average day.

OMF's online forex trading platform, OMF cTrader, allows you to speculate on the global inter-bank foreign exchange market whilst our traditional forex service facilitates dealing in forward contracts

or FX options. Both alternatives allow you to obtain an exposure many times larger than the size of your deposit. This provides leverage, where a small movement in the price of the currency will generate a large movement in the overall equity of your account.

Your money is safe with us

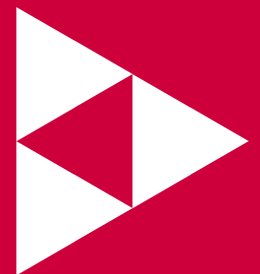

As a registered financial services provider in NZ, OMF is regulated by the FMA who supervise our compliance with NZ laws, regulation and best practice standards.

Our client funds are held safely on your behalf in a segregated client funds account that is separate from OMF's own capital. We never use your funds to meet other client's obligations or to hedge business risks.

Risk Warning:

Trading Forex and Derivatives carries a high level of risk to your capital and you should only trade with money you can afford to lose. Trading forex may not be suitable for everyone, so please ensure that you fully understand the risks involved. A full Risk Disclosure statement is available on our website and should be considered before deciding to enter into any Derivative transactions with OM Financial Limited.

OMF cTrader allows you to trade fast, secure, anytime, anywhere

Easy to use, OMF cTrader is a highly sophisticated, yet intuitive platform that offers a flawless trading experience.

Trades are routed via a Straight Through Processing (STP) model where transparent level II pricing is aggregated and streamed directly from our liquidity providers. This ensures you obtain the best price available, avoiding the need for 'market maker' intervention or manipulation and re-quotes.

- One click trading
- Fast execution and order entry
- No dealing desk intervention
- In-depth technical analysis tools
- Multi-charting functions
- Trade with multiple accounts
- Stay mobile with iOS & Android apps
